**Re: A NHI PUBLIC UPDATE - TO U.S. SEC JOBS ACT EDGAR FILING, INVESTORS & JOINT VENTURE PARTNERS**

Our Company, NHI Nash Holdings, Inc. is a filed New York State "C" Corporation and one of the first U.S. companies to file with and in participation with the U.S. Congressional JOBS ACT, required filing to the U.S. Securities and Exchange Commission with Regulation D, 506C "General Solicitation". We stand proud and to take a stand against white collar financial criminals, fake banking instruments promoters and sharing education to others, regarding AML/anti-money laundering transparencies and plans to work with top investigative government and private agencies to troll and lure these national and international BAD ACTORS for arrest, indictment and prosecution.

These terrible BAD ACTORS prey on honest businesses and private citizens worldwide by preying on the honest persons feelings and inexperience's, in yearly theft for millions of dollars. NHI will focus on two main areas, one; fraudulent scammers that offer false/fake banking instruments and trading platforms in the form of letters of credit, bank guarantees using computers to copy bank logos/structures creating fraudulent documents, fake websites, all to lure honest persons to pay upfront consulting fees and then disappearing without fear, to only start over with a new victim.

The second is with education and promoting transparencies favorable to AML/anti-money laundering regulations with a NHI layered plan both national and international, which must and will be addressed, confronted, and combating these BAD ACTORS. NHI is doing our part and will continue to accelerate in this area, with successfully contacting, with positive feedback of several retired U.S. FBI agents that we anticipate, will join one of our NHI Advisory Board(s) to assist our Team with arresting these financial criminals. We have also succeeded with making communications with the U.S. DOJ and top Executives of AAA/American Arbitration Association in hopes of finding additional options with fighting worldwide financial crimes, including the U.S. Securities and Exchange Commission's many layered investigative criminal enforcement divisions and avenues. Another target of cooperation will be with worldwide government consulate ambassadors, United Nations and related.

Why? We have wasted valuable time and lost assets to such criminals and not finding any private businesses standing up to these criminals and with only limited government investigations plagued with political wavering within Congress not funding additional required agents to investigate such criminals in a serious manner. Also, fake lotteries that prey on our elderly for years with no strong solution of stopping these lottery criminals, we will anticipate exposing them as well, step by step.

We plan on working with President Elect Joe Biden's Administration, all U.S. Congressional leaders, NY State government leaders, the ACLU/American Civil Liberties Union, and other agencies. We also will be working to make serious contact and acceleration with Biden's business leaders and our justice department's newly appointed prosecutors to play a positive role for NHI as well.

There are many areas we will be reaching out to in the new year with government strategies for economic growth, international governments, associations, international justice agencies, our U.S. Federal Banking, U.S. Treasury, World Banking, Central Banking, International Monetary Fund, United Nations Fund, FBI, Interpol, U.S. Homeland Security and other such agencies-associations.

NHI strongly believes all companies should pay at least five to ten percent on state/federal taxes making the nation economically stronger. It is better to offset tax rates with charitable contributions, but NOT with illegal offshore shell tax diversions, paying zero tax rates, which most large businesses and private wealth persons have been doing for decades, we also believe in a flat tax across the board for all citizens no matter what your income or wealth may be.

We anticipate *investing* in the fully regulated governmental digital banking, like the fully transparent Coinbase with their subsidiaries like USDC and USD Coin, a stable coin fully backed by the US dollar and developed by the CENTRE consortium. Coinbase customers with US dollar accounts may exchange 1 USDC for one [US@1.00](#) dollar, (and vice versa) on Coinbase in jurisdictions where USDC support is available. Also growing and educating ourselves with all aspects of the U.S. founded SWIFT.com digital services in Brussels, Belgium.

Finalizing this update, our Company is now in a new JVA/Joint Venture Agreement with several valued Partners. One that is over a four year relationship with face to face meetings in the UAE for anticipated full representation, with this Partner, who is fully approved/mandated with ADNOC/Abu Dhabi National Oil Corporation where NHI has been invited to be the North American marketing partner for, with this Partner. The relationship with ADNOC will only be through this Partner for it is their mandate. We anticipate using fully regulated, clear of all incumbencies and liens, as to anti-money laundering regulations with banking instruments, for our success in the trade of products with our UAE Partner, who is close and respected by the UAE Royal Families that controls ADNOC.

We have signed a JVA with a Partner who themselves, their immediate family and extended family are top financial planners, investors, and lawyers in London UK. Our Partner studied and received their degrees at NYU/New York University Manhattan and together we will receive and place into our private top banking accounts, letters of credit(s), bank guarantee(s) and related banking instruments/notes to leverage for NHI and our Partners, continuing additional valuation.

We have another JVA that promises international mandates for North American representations with precious metals and very large banking strategies; with this Partner who has been aware and following NHI's successes and serious leadership with standing up to financial crimes being a clear path with responsibility being a main concern in their eyes, anticipating a another successful valued acceleration with this Partner as well.

These and additional ventures, including all you may view on our website, we will accelerate with our ongoing successes in the coming weeks, and into 2021. The loosening of international pandemic quarantines and lessening travel restrictions will be a plus, as well as, the pending vaccine distributions, we optimistically feel by the end of January and early February 2021 it will be safer for required travels of our Team Executives and Partners.

This update will be uploaded to the EDGAR communications system required for participating filers adding essential information for public view and to update our Regulation D, 506C Jobs Act filing with the U.S. Securities and Exchange Commission. This update will also be added to our social media accounts and to our exciting website [www.nashholdingsinc.com](http://www.nashholdingsinc.com) or short easy memory link [www.nhi.one](http://www.nhi.one) the same website. Our NHI formal future press releases are anticipated promptly, including NASDAQ TOWER video screen in NYC Times Square Broadway for BIG POP IMPACT video releases, as we have done in the past, view on our website.

Thank you for updating yourself and learning more about our Company, NHI NASH HOLDINGS, INC., and have a Happy Holiday Season and a Happy New Year in 2021.

Best Regards – Stay Safe,

Robert J. Nash  
Chairman / CEO  
NHI Nash Holdings, Inc.
