**1931** Austrian: Vienna 4% federal capital 200 Swiss **gold** - francs

Part a loan of 75 million Swiss francs on a gold

basis (1 kg Gold was then 3.444 4/9SFR), which was placed by banks in France, Belgium, the Netherlands and of Switzerland. In accordance with the repayment schedule, the bond through annual draw should be repaid until 1970. The present installed piece with coupons from 1945 was never cashed. After the turn of the Millennium the city of Vienna laid on by the way again six bonds in Swiss francs and thus involved a big trouble: Although the interest rate was nominally extremely low, but the franc since then massively increased brought losses of several 100 million euros of

the city now.
